

A young boy with reddish hair is performing a handstand in a grassy field. He is wearing a blue and white striped t-shirt and khaki pants. The background is a soft-focus sunset with warm orange and yellow light filtering through trees, creating a bokeh effect. The overall mood is joyful and hopeful.

SPONSORSHIP OPPORTUNITIES

 **CHOC** Foundation

CHOC *One Wish Grants*

Serving those in need since 1964, CHOC was the first hospital in Orange County devoted exclusively to caring for children. While providing world-class care for the most vulnerable in our region, our CHOC teams are committed to defining the future of pediatric medicine. To springboard their dreams for CHOC into reality, CHOC Foundation established **One Wish Grants**.

One Wish Grants energizes associates and physicians from across the enterprise to develop the next generation of innovative ideas. With over 30 projects funded since 2017, **awarded teams have launched successful pilot programs that have served as a model for other pediatric hospitals, increased patient satisfaction scores, and offered thousands of dollars in savings to CHOC.**

Even through the 2020 global pandemic, CHOC has continued to serve over **185,000** children, teens, and young adults and doubled the amount of uncompensated care provided to our community to over **\$114 million**. Through a partnership with our supporters, CHOC will have the opportunity to continue supporting innovation to offer every patient the best chance to heal. All funds raised through One Wish Grants go directly towards programs in the hospital that drive leading-edge research, improve the patient and family experience, and expand the ways CHOC delivers care.

Our innovators are ready with their next revolutionary ideas. Join us to make their wish for CHOC a reality.

Invest in innovation. Be a Wish Granter.

DRIVING INNOVATION AND IMPACT

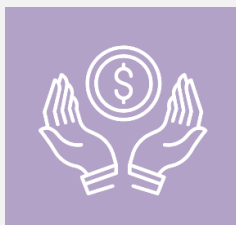

A SPRINGBOARD TO IMPROVE THE PATIENT EXPERIENCE

In the Dhont Family Foundation Outpatient Infusion Center (OPI) at CHOC placing an IV is a routine practice, but when a patient's vein is difficult to access, this normal procedure can cause significant stress and wait times. Motivated to provide a better experience for young patients, a team of nurses in the OPI applied for a \$22,000 grant to purchase a Sonosite SII ultrasound device.

Because of One Wish Grants, associates were able to quickly and painlessly place IVs in patient veins to begin infusions. With the Sonosite SII, nurses have boosted patient satisfaction, improved workflow, and increased their own confidence.

"The Sonosite SII gives more confidence to the nurses, families and patients. With this grants program, we can say what we need and have it granted. One Wish Grants is changing the dynamics of our unit."
-Sabrina Pattschull, Clinical Nurse

In an increasingly changing world, where COVID-19 has impacted every facet of life, innovation is needed now more than ever to seek creative solutions to unprecedented problems. Projects like this would not be possible without the generous support of partners like you.

\$20,000+
Annual savings to department

6.7%
Increase in patient satisfaction

OPI nurses gather for a successful training on the Sonosite SII.

Ideal Discharge Navigation Pilot Program

Streamlined the discharge process with a dedicated nurse who facilitates all components of hospitalization and oversees the process of a child returning safely home.

Rady Children’s Hospital and Children’s Hospital of Los Angeles have modeled their own discharge programs after CHOC’s pilot.

CARE: Center for Advancement of Rare Disease Editing Therapeutics

Uses a genome-editing approach to study and treat pre-clinical models of rare diseases.

Using the research developed as a springboard, this project earned a \$1million grant from the Larry and Helen Hoag Foundation to further their work.

CHOC Children’s Experience Video Guide

This virtual guide debuted videos representing more than 40 departments to reduce stress for patients and families prior to their hospital visits.

90+ videos in English and Spanish create a comprehensive and inclusive video guide.

Spina Bifida Urologic Disease Prevention Project

Established an effective prevention and treatment model for urologic complications with spina bifida patients.

Developed a unique home-monitoring model that has been shared with providers across the US and internationally.

YOUR ROLE AS A WISH GRANTER

Your contributions give CHOC care teams the ability to pioneer new solutions to serve the areas of greatest need in our community and will continue to drive innovative programs for patients and families, just like One Wish Grants’ awardees.

Inspire

Connect with others who drive innovation in our community through events, meetings, and social media.

Invest

In innovation! The larger the pool of funding, the more life-changing projects that can be funded.

Select

Hear directly from CHOC clinicians about their projects and participate in the exclusive selection committee to choose the new class of innovators!

Awards!

Attend the exciting event where teams are presented grants to start turning their ideas into reality –

all because of YOU

WISH GRANTER OPPORTUNITIES

Presenting \$250,000	Pillar \$100,000	Platinum \$50,000	Silver \$10,000	Individual \$5,000
-------------------------	---------------------	----------------------	--------------------	-----------------------

Selection Committee Seats: Exclusive virtual seats on the Selection Committee, comprised of CHOC executive leaders, clinical experts, and philanthropic leaders

Project updates from a selection of awarded team physicians/clinicians to follow progress

Website recognition honoring 2021 awardees

Invitation to view Awards Celebration

On-stage recognition at Presentation Day and Awards Celebration

Wish Granter Recognition for Presentation Day and Awards Celebration
Ex. Presenting – “One Wish Grants Presented By XXX”

Digital materials recognizing 2021 Presentation Day and Awards Celebration

Digital wall recognition in the CHOC Foundation for 2021 Presentation Day and Awards Celebration

Networking: Executive networking opportunity with physicians and clinicians

THANK YOU FOR YOUR CONSIDERATION OF THIS SPECIAL OPPORTUNITY
